

LE TECHNOPOLE DU MADRILLET

MADRILLET SCIENCE AND TECHNOLOGY PARK

CERTAM

Aerothermics and engine technology assessment and research centre

Automotive combustion and pollutant

CERTAM is a technological research and development centre specialising in clean engines and air quality. It provides a centre for synergies and technology transfer with manufacturers and equipment suppliers in the automotive industry.

IRSEEM

Research institute for embedded electronic systems

Embedded electronics

IRSEEM is a research institute for industrial purpose. It brings a global expertise on embedded electronics applied to vehicle and its environment. Backed by the ESIGELEC (Graduate School of Engineering) and the Chamber of Commerce and Industry of Rouen, it gathers some fifty industrialists.

C.E.V.A.A.

Centre d'Essais Vibro-Acoustique pour l'Automobile

CEVAA

NVH testing centre for the automotive industry Research and Development in Acoustics and Vibrations

CEVAA helps car manufacturers, suppliers, and all sectors of industry to overcome projects involving noise and vibration. It also acts as an expert consultant, carries out research programs and develops new methodologies with associated competencies and state-of-the-art tools. In the domain of Research and Innovation CEVAA provides full services for Project Management

COMPLEXE DE RECHERCHE
INTERPROFESSIONNEL EN AEROTHERMOCHEMIE

CORIA

combustion, plasmas, fluid physics

CORIA (185 people) is a joint laboratory organized between CNRS, the University of Rouen and the National Institute for Applied Sciences (INSA), the CORIA is recognised at national and international levels for its expertise in the aerothermochemistry of combustion, plasmas, spray and atomisation phenomena especially in combustion areas of internal combustion, aeronautical engines and industrial systems.

Point de rendez vous / Meeting Point:
15h30

CORIA • Avenue de l'université - BP12
Technopôle du Madrillet
76801 Saint Etienne du Rouvray Cedex
Tél. 33 (0)2 32 95 36 00 / Fax 33 (0)2 32 91 04 85

Début de la visite / Visit start: 15h30 - Fin de la visite / End of visit: 18h30
